

QWEEBI, INC

2093 PHILADELPHIA PIKE #8009
CLAYMONT, DE 19703

To Whom It May Concern,

This letter is to confirm that Qweebi, Inc. is the sole source provider of the Qweebi STEM Project Platform in the U.S, including its curriculum, digital Makerspace, and teacher dashboard.

Qweebi, Inc. has developed a unique suite of interactive STEM learning experiences designed specifically for elementary and middle school classrooms. These offerings are built on proprietary technology and original curriculum that are not available through any other vendor, distributor, or third-party reseller.

All Qweebi projects — including the Roller Coaster Engineering Challenge, Mars Rover Exploration, and others in our STEAM catalog — are available exclusively through our website at www.qweebi.com and are delivered as part of a cloud-based subscription. We do not authorize any agents, resellers, or third parties to distribute our products or services.

If you need a quote, invoice, or additional documentation for purchasing approval, feel free to contact us directly at aman@qweebi.com.

Thank you for your interest in Qweebi and for supporting innovative STEM education in your school.

Sincerely,

A handwritten signature in black ink that reads "Aman B".

Aman Bansal
Director
Qweebi, Inc
